

Assisted Living – Maggie’s Place

- The Assisted Living unit on the 3rd floor is staffed 24 hours a day by Resident Assistants.
- Residents are evaluated for their ability to function on their own or with minimal assistance from the Resident Assistants without the need of a constant caregiver.
- People with some physical or cognitive limitations find more secure surroundings here.
- All residents on the floor share a common private dining room and social area. As often as possible, they are included in the general activities open to all residents.

Feel free to visit the Assisted Living unit to maintain relationships with your friends.
